#### FORT ARTHUR'S HISTORY.

#### Taken by the Japanese Once Before, in the War With China.

"Certainly, Japan might just as well sail over and fry to take Gibraltar or Cronstadt as attempt to reduce Port Arthur by assault." Such was the opinion expressed by H. J Whigham in his recent book on Manchuria and Cores. But he evidently underestimated the staving qualities of the Japanese. as well as their fanatical courage and utter disregard of human life

The reduction of the fortress by the Japanese ten years ago was as child's play compared with the task that confronted in the present war. Since the Russians had been in control the place had been strengthened to such a degree that experts in military science deemed it impregnable.

Port Arthur was taken from the (hinese on Nov. 22, 1824. Then, as now, Marshall Oyama was in command of the victorious forces. He had approached Port Arthur steadily for two weeks, with his army in two divisions. Progress was slow and difficult, as the roads, where there were any, were poor, and the artillery could be almost empty of supplies. Many of them had been plundered bare by the Chinese.

The capture of the fortress then might have been a much harder task had the hinese been better soldiers, or had their officers been skilful enough in warfare to take complete advantage of their splendid position, which, in addition to its natural strength, was guarded by nine forts. In addition to these were the redoubts and de-

fensive earthwork encircling the fortress. By the treaty of peace signed at Shimonoseki on April 17. 1895, Port Arthur was ceded to Japan, with practically the whole Liaotung Peninsula, including all

lapan's withdrawal that the latter's conemplated possession of the Liaotung Peninsula would not only constitute a constant menace to the capital of China, but would also render the independence of Corea illusory, and thus jeopardize the permanent peace of the Far East. Japan was in no posiion to defy the three great Powers that submarine boats built at the local shipyards | had united to strip her of the fruits of her victory. Accordingly, the Emperor published, along with the ratified treaty, a rescript in which he "yielded to the dictates of magnanimity and accepted the advice (to withdraw) of the three Powers."

But the pill was a bitter one for Japan, and from that time on a feeling of keen as long as he was identified with men who resentment against Russia filled the minds of her people. They were still further embittered by the failure of an attempt to obtain from China an undertaking that, she would never cede to a third Power the restored territory. The prescience of her statesmen in asking for this pledge was made apparent three years later when China granted to Russia a lease for twentyfive years of Port Arthur and Talienwan, now Dalny, with the adjacent territories and territorial waters. ## DR. IRVINE'S QUEST IN VAIN.

LEAVES HUNTINGDON QUICKLY WHEN HE REALIZES IT.

Had a Disagreement With His Host, Mr. Hiller, Over the Alleged Bogus Telegrain and Goes to Another's House-Advised Not to Attend Church Service.

HUNTINGDON, Pa., Jan. 1 .- The Rev. Dr. Irvine left here shortly after noon to-day on an eastbound train after having failed utterly in his mission to conciliate either John Langdon or James Denithorn and to restore harmony among the six vestrymen of St. John's Church, all of whom have declared that their signatures were attached to the presentment against Bishop

Talbot without their knowledge or consent In fact, Dr. Irvine's visit here, instead of improving the situation, has only served to make his relations with the vestrymen even more strained, with the one exception of W. Graffius Miller, who has ever been a stanch adherent of the unfrocked clergyman. Miller, who has admitted that he obtained the signatures of the five other vestrymen which, with his own, appear at the bottom of the presentment, is the only well known member of St. John's Church who is now favorable to Dr. Irvine.

Even W. F. Hillier at whose house Dr Irvine found a haven upon his arrival here last night, has deserted the clergyman. a land fight, but the course of events was The two had a disagreement late last night as to the authenticity of the telegram received by Miller on Friday last which read: Don't say anything. I have written each a long letter explaining misrepresenta-

IRVINE." Hillier had called upon Denithorn to try to induce him to see Dr. Irvine, and Denithorn showed him the original message which, addressed to Miller, was received at the Postal Telegraph Company's office here. Dr. Irvine had told Hillier that no such message had been received here and that it was a newspaper fabrica-

Hillier returned home immediately with the telegram and demanded an explanathe two parted after a heated discussion and Dr. Irvine went to Miller's house at 11 o'clock last night, where he remained

until his departure. Dr. Irvine did not see either Langdon or Denithorn while he was here and both Russia gave as her reason for demanding | declared after he left that their position in the matter was exactly the same as it had been before his coming. Both are greatly incensed at the declaration of Herbert Noble, counsel for the presenters of Bishop Talbot, in Philadelphia yesterday, that the telegram received by Miller was bogus and sent by Irvine's enemies in an attempt to discredit the unfrocked clergy-

Mr. Noble's utterances have only served o widen the breach between Langdon and Denithorn and Dr. Irvine. They both denounced the New York lawyer in unqualified terms to-day and said that Dr. Irvine would receive little sympathy from them were "manifestly playing to the gallery."

Dr. Irvine's exit from Huntingdon was quite as unexpected as his arrival. He had promised to attend the services at St. John's Church to-night, having been invited to do so by Miller and other members of it. But when it became known to the majority of the members, many of them threatened to remain away from the services if Dr. vine attended them.

They agreed that if the clergyman was welcomed at the church it might be construed as unfavorable to Bishop Talbot. Several of the members were delegated to call upon him at Miller's house and intimate to him that it would be unwise for him to appear at the church when the controversy between Bishop Talbot and him, in which the church figured so conspicuously, was the subject of so much publicity. Dr As to the physical features of the place, Irvine agreed with the delegation and assured them that he had come to Huntingden in the rôle of peacemaker.

Dr. Invine remained in seclusion at Miller's house until a minute before the 12:04 o'clock eastbound train pulled out. He walked to the railroad station where he was surrounded by newspaper reporters.
